

THE HICKMAN COURIER.

HICKMAN, KY.

FRIDAY, 1:1 JULY 14, 1893.

At Middleborough, Ky., last Friday, a ruined fish 3 inches long.

It is believed that Utah will soon be admitted to the Union of States.

It is probable that Congress in extra session will act on the Mc-Kinley bill, as well as silver.

As a result of an old feud, one man was killed and another badly wounded at a place near Princeton, Ky., last week.

According to the New York World, the cotton crop prospects of the United States for this year are very poor.

The Western Passenger association roads have agreed upon a road and trip world's fair excursion rate, good for either 7 or 11 days.

REPUBLICANS AND POPULISTS both have put out candidates for Governor of Ohio, but the former is not yet named. The Democratic convention will be held in August.

THE GOVERNMENT PAYS \$10,000.

Manufacturers, under the McKinley bill, while the people are in the grip of a trust that has put the price of sugar back to almost the old prices.

THE COURIER-JOURNAL says: The political problems are already at work on the next gubernatorial campaign, and predictions are now made that the election will be unusually lively one. It is thought that Congressman Stone will be among the candidates.

Another paper criticizes Secretary Carlisle's capture of change of front on the silver question, and dwell on the fact that he once favored free coinage. It is only a proof of the old adage which says, "Wise men sometimes change their opinions, never their noses."

THE ST. LOUIS GLOBE-DEMOCRAT is patriotic enough to say that it doesn't matter why the Sherman law was passed or which party is most to blame. The important point is that it turned out to be a national misfortune and both parties ought to vote for its repeal.

THE REPUBLICANS are pointing to the fact that the country is undergoing a financial crisis. They try to make it appear that the Democratic party is to blame for it. Consider us to a party that has hope for success only in the country's demoralization.

THE BANKS of the State are preparing to resist the pressure of the new law, which authorizes cities and counties to levy an additional tax, over and above the State tax, of forty-two and one-half cents. This will carry the fight to the United States Supreme Court, it is said, if necessary.

WHAT promises to be one of the greatest events in the history of the World's Fair will take place on the 25th of the present month. On that date the coming of the world's fair will cover the country, even to Australia, will meet in grand parade, and their will be devoted to them and their pleasure. The grand thoughts and aims are expected to be in line.

SECRETARY HORN SMITH said the other day: "If every child in the country is educated, we never care to give it to them. We should be fond of it to find a wonderful change. We should be physically, morally, more prepared for the kind of work we have. Commenting upon this statement, an exchange pointedly says: "Alas, Mr. Smith, if only you are the man to do it, we have the men to do it. We have the volunteers for the work of education who might find others in the field of a great civil war, when we have no time to take to define a pap and mamma what 'proper care' is."

CONGRESSMAN ARTHUR H. TAYLOR, of Indiana, has secured the signing of the bill as a postmaster in direct opposition to the other on the plea that the former incumbent "possesses an unruly temper and a bad-tempered tongue, and has a short temper on all occasions, much to the great annoyance and discomfiture of the good people" of the town, while the other is "a man of great tact like a May morning and a voice like the notes of a silver bell, whose tones are like the ringing peals of a quiet church bell, the denouement of this future important village, now situated in the heart of the inexperience and patriotism of the first district."

THE PEOPLE of Sikeston, Mo., where the negro riot and disorder was arrested, are in a state of excitement, and threaten to run the colored population out of their community. So hideous are they over the disordersly outrage that they are anxious to get rid of the race, and promises such moderation. The negroes may grow into something worse before the end is reached. The negroes are to be put in a state of confinement, and their freedom is to be taken away, and their sins of their individual members, it would be a great injustice to condemn them for the sins of the whole race. All this is now conceded. Still, unless the white people, who are highly educated, educated, and trained from negro rapists and marauders, may be expected to defend them selves, and they will do it, if it results in the extirpation or extermination of the colored race. Appeal Availa.

The Bardwell Lynching.

The negro who murdered the two Ray girls near Bardwell last week was captured at Sikeston, Mo., and carried back to Bardwell and jailed. On Friday evening a mob of a dozen or more, forcibly entered the jail and put a heavy chain around his neck and dragged him to the depot and hung him to a telephone pole. After the lynch the body was lowered and horribly mutilated, the ears, fingers and other parts of the body being torn away. The body was then dragged by the mob a distance of 300 yards and burned.

As a result of an old feud, one man was killed and another badly wounded at a place near Princeton, Ky., last week.

According to the New York World, the cotton crop prospects of the United States for this year are very poor.

THE WESTERN PASSENGER association roads have agreed upon a road and trip world's fair excursion rate, good for either 7 or 11 days.

REPUBLICANS AND POPULISTS both have put out candidates for Governor of Ohio, but the former is not yet named. The Democratic convention will be held in August.

WHEN THE WORLD IS OLD.

The leading English scientists, Jones, Hilton, et al., are figuring on the probabilities of the earth finally collapsing as a result of the modern craze for tapping nature's great gas main, and that when it does, the earth's crust will burst into many pieces, and that the surface of the earth will be torn asunder.

The new medical practice act, which is yet in full possession of the Board of Health, and which is to be adopted at the next session of the Board, will be a great improvement, and will be a great benefit to the public.

There are no requirements of the Board of Health, and the Board of Health will be a great improvement.
